Since its creation, the occupying state enforced and developed laws and practices that led to both the systematic use of torture and to absolute impunity for the perpetrator of this crime. Historically speaking, several torture methods were used against Palestinians, that included but were not limited to shaking, the baby chair, covering the head with a bag, forced listening to loud music, the closet, ripping of nails, and many other methods that were used to extract confessions from Palestinian detainees. In fact, since the beginning of the occupation in 1967, 73 Palestinian detainees were killed in Israeli interrogations.
