NGO Action

Addameer works in close coordination with, and provides regular information to, a number of international human rights and other organizations working on detention-related issues. As a result of this coordination, NGOs and international organizations have adopted a number of Palestinian political prisoners that Addameer has campaigned on and issue regular urgent appeals on their behalf based on information provided by Addameer. The following pages include links to urgent appeals, press releases and resolutions on Palestinian prisoners by these organizations:
